SERVICE LIFT

DOUBLE SYNCHRONIZATION CYLINDERS PROVIDES EXTRA STABILITY

The Hofmann 3.5T GEN-II Double Scissor Alignment Lift is ideal lifts for most passenger vehicles, ranging from compact cars up to light duty trucks. These car scissor lifts are innovatively built for safety, versatility and allows you to lift vehicles faster and more efficiently while also taking up less shop floor space.

SPACE SAVING AND USER-FRIENDLY DESIGN

- Utilizes less space than conventional four-post lifts
- High-Tier hydraulic synchronization with easy adjustment controls
- Flush mounted platforms ensure ease of vehicle movement, durability and risk-free of damaging the low body-kit vehicles
- Bi-directional mounting power-pack control console customized to your workshop setup

EASY WORK ACCESS

- Extendable platform to work on longer vehicles by extending and locking the platform
- Single button descent for easy, fast operations

STRENGTH AND SAFETY

- Rugged and robust design with textured surface finishing to withstand the demanding environment of a workshop
- Composite high-strength steel construction
- Powder coat finishing with non-skid runway platform surface
- 19-steps locking ladders mount through the traverse beams provides a comfortable working position and ensures safety lock engagement

Model: EELR794AKS
