

**3.5T Double Scissor Service Lift  
Precision Lifting with Ultimate Versatility  
EELRBP762LAP2 / EELRBP762LAP4**

**FEATURES**

- ✓ 3.5T lifting capacity
- ✓ Space-saving double-scissor in-ground design, allowing for improved workspace access and a cleaner workshop layout
- ✓ Dual-side deck extensions cater for a wider range of vehicle sizes, providing greater flexibility for different chassis widths
- ✓ Laser leveling system ensures precise platform alignment during lifting, significantly enhancing operational safety
- ✓ Equipped with a one-button release function, enabling quick and easy lowering with minimal operator effort
- ✓ Recommended for independent workshops and tire shops seeking durable, efficient and user friendly lifting solutions

Model: EELRBP762LAP			
Part Number			
EELRBP762LAP2: 200-240 VAC1, 50/60Hz		EELRBP762LAP4: 380-415 VAC3, 50Hz	
Type of Lift	Lifting Capacity	Raising Time	Lowering Time
Double Scissor Service Lift	3,500 kg	30-50 Seconds	30-110 Seconds
Max. Raised Height	Pit Depth	Overall Width	Overall Length
1,735 mm	355 mm	1,940 mm	1,665 - 2,140 mm
Platform Width	Hydraulic Oil Type	Oil Tank Capacity	Max. Operation Hydraulic Pressure
556 mm	ISO 32/46 (10 weight)	12 L	21 Mpa (3000 psi)
